Subject Index of Volume 65

Acetic acid
  hydrogen generation in photolysis of aqueous solutions of, in presence of copper(II) chloride, L1
Acetylene
  facile one-pot-synthesis of polyphenylacetylene with Group VI metal carbonyls as catalysts, 205
Adsorption
  IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73
Aldehydes
  $Ru_3(CO)_{12}$-based catalysts for selective reduction of α,β-unsaturated aldehydes, 287
  vapour phase oxidation in preparation of 3-hydroxypyridine-4-carboxaldehyde: vitamin B_6 analogue, L25
Alkali metal addition
  effect of, on activity of WO_3 in propene metathesis, 181
Alkanes
  IR and UV–Vis spectroscopic studies of surface $Mo{=}CH_2$ and $Mo{=}CH{-}CH_3$ carbene complexes produced by methylcyclopropane chemisorption over photoreduced silica–molybdena catalysts, 393
Alkenes, Olefins
  aqueous metathesis polymerizations of heteropolycyclic, using transition metal chloride catalysts, 63
  block and graft copolymers by living ring-opening olefin metathesis polymerization, 211
  catalytic activity of supported W and Mo complexes in olefin metathesis, 187
  comparison of photocatalytic metatheses of terminal and internal: metathesis of 2-octene, 329
  cross-metathesis of vinyltriethoxysilane with, catalysed by Ru complexes, 113
  deactivation of Re-based catalysts for metathesis of propene, 219
  effect of alkali metal addition on activity of WO_3 in propene metathesis, 181
  effects of Mo oxidation states on olefin metathesis, 15
  functional oligomers of norbornene: oligomerization by ring-opening metathesis polymerization in presence of unsaturated diesters, 193
  hetero-olefin metathesis: interaction of M–C, S–O and P–C multiple bonds, 85
  homogeneous catalytic hydrogenation of, by zero-valent Pd complexes of *cis*-fixed dinitrogen ligands, L13
  IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73
  metathesis of ethylene–butene mixtures to propylene with Re on alumina catalysts, 39
  metathesis of functionalized acyclic, 145
  metathesis polymerization: copolymers of methyltetracyclododecene and norbornene nitrile, 1
  modelling of cross-metathesis of cyclopentene and 1,7-octadiene, 29
  olefin metathesis: chance favours those minds that are best prepared, 55
  $Re_2O_7/\gamma\text{-}Al_2O_3$ catalyst for propene metathesis: further study on effect of pretreatment, 275
  substituted chromocenes for ethylene polymerization catalysts, 173
  sulphide poisoning of ethylene polymerization over Phillips Cr/silica catalyst, 139
  surface compounds of transition metals: influence of experimental parameters on polymerization of 1-alkenes with surface Cr(II), 101
  tungsten carbonyl precursors in catalysed olefin metathesis: $R_nCl_{3-n}SnW(CO)_3Cp/iBuAlCl_2/O_2$ system: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269

Elsevier Sequoia/Printed in The Netherlands

ytterbium vapour in polymerization of 2-methylbutadiene and (*E*)-(*Z*)-1,3-pentadiene, L21
Alkylation
catalyst system tungsten hexachloride/tetramethyltin; reduction of tungsten hexachloride during alkylation step, 253
m-cresol: comparative study of oxides for, 385
Alkynes
Mo carbonyl compounds as catalysts for alkyne reactions, 51
one-pot-synthesis, facile, of polyphenylacetylene with Group VI metal carbonyls as catalysts, 205
Aluminium
metathesis of ethylene–butene mixtures to propylene with Re on alumina catalysts 39
Re_2O_7/γ-Al_2O_3 catalyst for propene metathesis: further study on effect of pretreatments, 275
Re-oxide–alumina and Re-oxide–silica–alumina metathesis catalysts: role of genesis and modification of precursor structures, and lack of activity of low-loading Re-oxide–alumina catalyst, 359
tungsten carbonyl precursors in catalysed olefin metathesis: R_nCl_{3-n}-$SnW(CO)_3Cp/iBuAlCl_2/O_2$ system: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269
Antimony
oxygen spillover on Sb_2O_4/MoO_3 mixtures: comment on use of ^{18}O-labelled catalyst in hydrocarbon oxidation studies, L41
Aromatic compounds
comparative study of oxides for *m*-cresol alkylation, 385
one-pot-synthesis, facile, of polyphenylacetylene with Group VI metal carbonyls as catalysts, 205
oxygen atom transfer from dimethyl sulphoxide and N_2O to triphenylphosphine mediated by cyanooxomolybdate(IV) anion, L9
reductive silylation of quinones catalysed by tris(triphenylphosphine)-chlororhodium(I): oxidative desilylation, 307
selective catalytic reduction of aromatic nitro compounds using CO and water with highly active Rh–phosphine chelate complexes, L5
vapour phase oxidation in preparation of 3-hydroxypyridine-4-carboxaldehyde: vitamin B_6 analogue, L25

Bonding
interaction of M–C, S–O and P–C multiple bonds; hetero-olefin metathesis, 85
and structure and reactions of CO_2 adsorbed on clean and promoted metal surfaces, 337
Bromoacetamide
N-: kinetics and mechanism of oxidation of some hydroxy acids by, 317

Carbonyls
Mo carbonyl compounds as catalysts for alkyne reactions, 51
one-pot-synthesis, facile, of polyphenylacetylene with Group VI metal carbonyls as catalysts, 205
tungsten carbonyl precursors in catalysed olefin metathesis: R_nCl_{3-n}-$SnW(CO)_3Cp/iBuAlCl_2/O_2$ system: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269
Chemisorption
methylcyclopropane: IR and UV–Vis spectroscopic studies of surface $Mo{=}CH_2$ and $Mo{=}CH{-}CH_3$ carbene complexes produced by, over photoreduced silica–molybdena catalysts, 393
Chemoenzymic approaches
towards efficient synthesis of multifunctional cyclopentanoid systems, L45
Chromium
IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73
sulphide poisoning of ethylene polymerization over Phillips Cr/silica catalyst, 139
surface compounds of transition metals: influence of experimental parameters on polymerization of 1-alkenes with surface Cr(II), 101
Chromocenes
substituted, for ethylene polymerization catalysts, 173

CO
analysis of Pt/SnO_x during catalysis of CO oxidation, 377
IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73
selective catalytic reduction of aromatic nitro compounds using CO and water with highly active Rh–phosphine chelate complexes, L5
temperature-programmed reaction of pre-adsorbed, on iron catalyst: new experimental evidence for Competition Model, 293
CO_2
bonding, structure and reactions of, adsorbed on clean and promoted metal surfaces, 337
Computer simulation
improved, of metathesis reactions, 127
Copolymers
block and graft, by living ring-opening olefin metathesis polymerization, 211
of methyltetracyclododecene and norbornene nitrile: metathesis polymerization, 1
Copper
hydrogen generation in photolysis of aqueous solutions of acetic acid in presence of copper(II) chloride, L1
Cresol
comparative study of oxides for *m*-cresol alkylation, 385
Cyclopentanoid systems
multifunctional: chemoenzymic approaches towards efficient synthesis of, L45

Derivation
of Re-based catalysts for metathesis of propene, 219

Enzymes
chemoenzymic approaches towards efficient synthesis of multifunctional cyclopentanoid systems, L45
solid: rationale to explain catalytic activity of, in organic solvents, L49
Esters
functional oligomers of norbornene: oligomerization by ring-opening metathesis polymerization in presence of unsaturated diesters, 193

Hydrocarbon oxidation studies
comment on use of ^{18}O-labelled catalysts in: oxygen spillover on Sb_2O_4/MoO_3 mixtures, L41
Hydrogen
generation in photolysis of aqueous solutions of acetic acid in presence of copper(II) chloride, L1
Hydrogenation
homogeneous catalytic, of alkenes by zero-valent Pd complexes of *cis*-fixed dinitrogen ligands, L13
Hydroxy acids
some: kinetics and mechanism of oxidation of, by *N*-bromoacetamide, 317

Iron catalyst
temperature-programmed reaction of pre-adsorbed CO on: new experimental evidence for Competition Model, 239

Metathesis
aqueous, polymerizations of heteropolycyclic alkenes using transition metal chloride catalysts, 63
catalysed olefin: tungsten carbonyl precursor in; $R_nCl_{3-n}SnW(CO)_3Cp/iBuAlCl_2/O_2$ system; characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269
cross-, of cyclopentene and 1,7-octadiene: modelling of, 29
cross-, of vinyltriethoxysilane with olefins catalysed by Ru complexes, 113
deactivation of Re-based catalyst for, of propene, 219
of ethylene–butene mixtures to propylene with Re on alumina catalysts, 39
of functionalized acyclic olefins, 145
hetero-olefin: interaction of M−C, S−O and P−C multiple bonds, 85
improved computer simulation of, reactions, 127
living ring-opening olefin, polymerization: block and graft copolymers by, 211
of 2-octene: comparison of photocatalytic metatheses of terminal and internal olefins, 329
olefin: catalytic activity of supported W and Mo complexes in, 187

olefin: chance favours those minds that are best prepared, 55
olefin: effects of Mo oxidation states on, 15
of palm oil, 163
polymerization: copolymers of methyltetracyclododecene and norbornene nitrile, 1
polymerization — stepwise or chain growth reaction?, 95
propene: effect of alkali metal addition on activity of WO_3 in, 181
propene: $Re_2O_7/\gamma\text{-}Al_2O_3$ catalyst for; further study on effect of pretreatments, 275
Re-oxide–alumina and Re-oxide–silica–alumina, catalysts: role of genesis and modification of precursor structures, and lack of activity of low-loading Re-oxide–alumina catalyst, 359
ring-opening, polymerization in presence of unsaturated diesters: oligomerization by; functional oligomers of norbornene, 193
Molybdenum
carbonyl compounds as catalysts for alkyne reactions, 51
catalytic activity of supported W and Mo complexes in olefin metathesis, 187
effects of Mo oxidation states on olefin metathesis, 15
IR and UV–Vis spectroscopic studies of surface $Mo{=}CH_2$ and $Mo{=}CH{-}CH_3$ carbene complexes produced by methylcyclopropane chemisorption over photoreduced silica–molybdena catalysts, 393
oxygen atom transfer from dimethyl sulphoxide and N_2O to triphenylphosphine mediated by cyanooxomolybdate(IV) anion, L9
oxygen spillover on Sb_2O_4/MoO_3 mixtures: comment on use of ^{18}O-labelled catalysts in hydrocarbon oxidation studies, L41

Norbornene
functional oligomers of: oligomerization by ring-opening metathesis polymerization in presence of unsaturated diesters, 193
metathesis polymerization: copolymers of methyltetracyclododecene and norbornene nitrile, 1

Olefins: see Alkenes
Oligomerization
by ring-opening metathesis polymerization in presence of unsaturated diesters; functional oligomers of norbornene, 193
Oxidation
CO: analysis of Pt/SnO_x during catalysis of, 377
comment on use of ^{18}O-labelled catalysts in hydrocarbon, studies: oxygen spillover on Sb_2O_4/MoO_3 mixtures, L41
effects of Mo, states on olefin metathesis, 15
kinetics and mechanism of, of some hydroxy acids by *N*-bromoacetamide, 317
vapour phase, in preparation of 3-hydroxypyridine-4-carboxaldehyde: vitamin B_6 analogue, L25
Oxygen
atom transfer from dimethyl sulphoxide and N_2O to triphenylphosphine mediated by cyanooxomolybdate(IV) anion, L9
spillover on Sb_2O_4/MoO_3 mixtures: comment on use of ^{18}O-labelled catalysts in hydrocarbon oxidation studies, L41
tungsten carbonyl precursors in catalysed olefin metathesis: $R_nCl_{3-n}SnW(CO)_3Cp/iBuAlCl_2/O_2$ system: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269

Palladium
homogeneous catalytic hydrogenation of alkenes by zero-valent Pd complexes of *cis*-fixed dinitrogen ligands, L13
Palm oil
metathesis of, 163
Phillips catalyst
Phillips-type polymerization catalysts: kinetic behaviour and active centre determination, 237

sulphide poisoning of ethylene polymerization over Phillips Cr/silica catalyst, 139
Phosphorus
oxygen atom transfer from dimethyl sulphoxide and N_2O to triphenylphosphine mediated by cyanooxomolybdate(IV) anion, L9
reductive silylation of quinones catalysed by tris(triphenylphosphine)-chlororhodium(I): oxidative desilylation, 307
selective catalytic reduction of aromatic nitro compounds using CO and water with highly active Rh–phosphine chelate complexes, L5
Photolysis
hydrogen generation in, of aqueous solutions of acetic acid in presence of copper(II) chloride, L1
Platinum
analysis of Pt/SnO_x during catalysis of CO oxidation, 377
Polymerization(s)
aqueous metathesis, of heteropolycyclic alkenes using transition metal chloride catalysts, 63
ethylene, catalysts: substituted chromocenes for, 173
ethylene: sulphide poisoning of, over Phillips Cr/silica catalyst, 139
influence of experimental parameters on, of 1-alkenes with surface Cr(II); surface compounds of transition metals, 101
living ring-opening olefin metathesis: block and graft copolymers by, 211
metathesis: copolymers of methyltetracyclododecene and norbornene nitrile, 1
metathesis – stepwise or chain growth reaction?, 95
Phillips-type, catalysts: kinetic behaviour and active centre determination, 237
ring-opening metathesis: oligomerization by, in presence of unsaturated diesters; functional oligomers of norbornene, 193
ytterbium vapour in, of 2-methylbutadiene and (*E*)-(*Z*)-1,3-pentadiene, L21

Quinones
reductive silylation of, catalysed by tris(triphenylphosphine)chlororhodium(I): oxidative desilylation, 307

Reduction
selective catalytic, of aromatic nitro compounds using CO and water with highly active Rh–phosphine chelate complexes, L5
selective: $Ru_3(CO)_{12}$-based catalysts for, of α,β-unsaturated aldehydes, 287
of tungsten hexachloride during alkylation step; catalyst system tungsten hexachloride/tetramethyltin, 253
Rhenium
deactivation of Re-based catalysts for metathesis of propene, 219
metathesis of ethylene–butene mixtures to propylene with, on alumina catalysts, 39
$Re_2O_7/\gamma\text{-}Al_2O_3$ catalyst for propene metathesis: further study on effect of pretreatment, 275
Re-oxide–alumina and Re-oxide–silica–alumina metathesis catalysts: role of genesis and modification of precursor structures, and lack of activity of low-loading Re-oxide–alumina catalyst, 359
Rhodium
highly water-soluble surfactants, new, stabilize colloidal Rh(0) suspensions useful in biphasic catalysis, L35
reductive silylation of quinones catalysed by tris(triphenylphosphine)-chlororhodium(I): oxidative desilylation, 307
selective catalytic reduction of aromatic nitro compounds using CO and water with highly active Rh–phosphine chelate complexes, L5
Ruthenium
complexes: cross-metathesis of vinyltriethoxysilane with olefins catalysed by, 113
$Ru_3(CO)_{12}$-based catalysts for selective reduction of α,β-unsaturated aldehydes, 287

Silicon
cross-metathesis of vinyltriethoxysilane with olefins catalysed by Ru complexes, 113

IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73

IR and UV–Vis spectroscopic studies of surface $Mo{=}CH_2$ and $Mo{=}CH{-}CH_3$ carbene complexes produced by methylcyclopropane chemisorption over photoreduced silica–molybdena catalysts, 393

Re-oxide–alumina and Re-oxide–silica–alumina metathesis catalysts: role of genesis and modification of precursor structures, and lack of activity of low-loading Re-oxide–alumina catalyst, 359

sulphide poisoning of ethylene polymerization over Phillips Cr/silica catalyst, 139

Silylation

reductive, of quinones catalysed by tris(triphenylphosphine)chlororhodium(I): oxidative desilylation, 307

Spectroscopy

attempts to settle controversial assignment of IR band to different surface compounds in acidic zeolites, L29

IR study of CO/C_2H_4 coadsorption and reaction on silica-supported Cr(II) ions, 73

IR and UV–Vis spectroscopic studies of surface $Mo{=}CH_2$ and $Mo{=}CH{-}CH_3$ carbene complexes produced by methylcyclopropane chemisorption over photoreduced silica–molybdena catalysts, 393

Sulphur

oxygen atom transfer from dimethyl sulphoxide and N_2O to triphenylphosphine mediated by cyanooxomolybdate(IV) anion, L9

sulphide poisoning of ethylene polymerization over Phillips Cr/silica catalyst, 139

Surface

attempts to settle controversial assignment of IR band to different surface compounds in acidic zeolites, L29

bonding, structure and reactions of CO_2 adsorbed on clean and promoted metal surfaces, 337

compounds of transition metals: influence of experimental parameters on polymerization of 1-alkenes with surface Cr(II), 101

Surfactants

highly water-soluble, new, stabilize colloidal Rh(0) suspensions useful in biphasic catalysis, L35

Suspensions

highly water-soluble surfactants, new, stabilize colloidal Rh(0) suspensions useful in biphasic catalysis, L35

Tin

analysis of Pt/SnO_x during catalysis of CO oxidation, 377

catalyst system tungsten hexachloride/tetramethyltin; reduction of tungsten hexachloride during alkylation step, 253

tungsten carbonyl precursors in catalysed olefin metathesis: $R_nCl_{3-n}SnW(CO)_3Cp/iBuAlCl_2/O_2$ systems: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269

Transition metal chloride catalysts

aqueous metathesis polymerizations of heteropolycyclic alkenes using, 63

Transition metal surface compounds

influence of experimental parameters on polymerization of 1-alkenes with surface Cr(II), 101

Tungsten

catalyst system tungsten hexachloride/tetramethyltin; reduction of tungsten hexachloride during alkylation step, 253

catalytic activity of supported W and Mo complexes in olefin metathesis, 187

effect of alkali metal addition on activity of WO_3 in propene metathesis, 181

route, new, to preparation of tungsten pentachloride, 261

tungsten carbonyl precursors in catalysed olefin metathesis: $R_nCl_{3-n}SnW(CO)_3Cp/iBuAlCl_2/O_2$ system: characterization of reaction products and synthesis of $iBu_nCl_{3-n}SnW(CO)_3Cp$ derivatives, 269

Vinyltriethoxysilane

cross-metathesis of, with olefins catalysed by Ru complexes, 113

Vitamin B_6 analogue

vapour phase oxidation in preparation of 3-hydroxypyridine-4-carboxaldehyde, L25

Water
and CO: selective catalytic reduction of aromatic nitro compounds using, with highly active Rh–phosphine chelate complexes, L5
highly water-soluble surfactants, new, stabilize colloidal Rh(0) suspensions useful in biphasic catalysis, L35

Ytterbium vapour
in polymerization of 2-methylbutadiene and (*E*)-(*Z*)-1,3-pentadiene, L21

Zeolites
acidic: attempts to settle controversial assignment of IR band to different surface compounds in, L29
